

Blood Bank: Positive antibody screens or DAT ALH Critical Values

| TEST | LOW | POSSIBLE EFFECT | HIGH | POSSIBLE EFFECT |
|---------------------------------|---------------------------|--|--------------------------|--|
| Chemistry | | | | |
| Acetaminophen | N/A | | $\geq 50 \text{ mcg/ml}$ | Toxicity; Liver |
| Bicarbonate (HCO ₃) | $\leq 10 \text{ meq/L}$ | Acidosis/Alkalosis/Anoxemia | $\geq 40 \text{ meq/L}$ | Acidosis/Alkalosis/Anoxemia |
| Bilirubin - Neonate | N/A | | $\geq 18 \text{ mg/dL}$ | Kernicterus |
| BUN | N/A | | $\geq 100 \text{ mg/dL}$ | Acute Renal Failure |
| Calcium | $\leq 6 \text{ mg/dL}$ | Tetany and Convulsions | $\geq 13 \text{ mg/dL}$ | Coma |
| Digoxin | N/A | | $\geq 2.5 \text{ mg/mL}$ | Ventricular Arrhythmias |
| Glucose | $\leq 50 \text{ mg/dL}$ | Brain Damage | $\geq 500 \text{ mg/dL}$ | Diabetic Coma |
| Glucose-Newborn | $\leq 20 \text{ mg/dL}$ | Brain Damage | $\geq 300 \text{ mg/dL}$ | Diabetic Coma |
| Phosphorus | $\leq 1 \text{ mg/dL}$ | Seizures and Coma | N/A | |
| Potassium | $\leq 2.5 \text{ meq/L}$ | Muscle Weakness/Paralysis/Cardiac Tox. | $\geq 6.5 \text{ meq/L}$ | Cardiac Toxicity/Arrhythmias |
| Potassium-Newborn | $\leq 2.5 \text{ meq/L}$ | Muscle Weakness/Paralysis/Cardiac Tox. | $\geq 8.0 \text{ meq/L}$ | |
| Salicylate | N/A | | $\geq 400 \text{ ug/mL}$ | Metabolic Acidosis |
| Sodium | $\leq 120 \text{ meq/L}$ | Extreme Dehydration/Vascular Collapse | $\geq 160 \text{ meq/L}$ | Extreme Dehydraration/Vascular Collapse |
| Troponin | N/A | | $\geq 0.1 \text{ ng/mL}$ | Evidence of Myocardial Damage |
| Lactic Acid | | | $>4.0 \text{ mmol/L}$ | |
| Hematology - Coagulation | | | | |
| Hematocrit | $\leq 20 \text{ Vol \%}$ | Heart Failure/Anoxemia | N/A | |
| Hemoglobin | $\leq 6.5 \text{ gm \%}$ | Heart Failure/Anoxemia | N/A | |
| Platelets | $\leq 30,000/\text{mm}^3$ | Hemorrhage | N/A | |
| Platelets - Pediatric | $\leq 20,000/\text{mm}^3$ | Hemorrhage | N/A | |
| White Blood Count | $\leq 2000/\text{mm}^3$ | Leukopenia | $\geq 30,000 \text{ mm}$ | Serious Infection/Lymphoproliferative Disorder |
| Partial Thromboplastin Time | N/A | | $\geq 90 \text{ sec.}$ | Hemorrhage |
| Prothrombin Time | N/A | | $\geq 40 \text{ sec}$ | Hemorrhage |
| Microbiology | | | | |
| AFB Smear | | | POS | Infection/Requiring Isolation |
| Blood Culture - Positive | N/A | | POS | Infection/Sepsis Syndrome |
| Gram Stain - Sterile Site (+) | N/A | | POS | Infection/Severe |
| MRSA-Inpatient | N/A | | POS | Infection/Requiring Isolation |
| VRE-Inpatient | N/A | | POS | Infection/Requiring Isolation |
| ESBC + Organisms- Inpatient | N/A | | POS | Infection/Requiring Isolation |
| C Diff-Inpatient | N/A | | POS | Infection/Requiring Isolation |
| N. meningitidis in CSF | N/A | *Also contact IC/Emp Health | POS | Infection/Requiring Isolation |
